SCHOOL REPORT.

In compliance with our State school law, I herewith submit my annual report of the condition of the schools under my charge, for the school year just passed.

School work generally has gone along very satisfactorily. We have been fortunate in securing teachers of experience, with one or two exceptions, and I think that we have received good value for money expended. In the school work of the past year there is much we should feel satisfied with, and at the same time many things that we should improve upon. No doubt there are grave errors in our educational plan, and among the gravest are those made in selecting and retaining our rural teachers. They are the ones that are the poorest paid, and much too often the better the teacher the sooner her services are lost to us to accept a better position. A good school is a growth, and whether that growth be quick or slow depends very much upon the teacher; and we find that the teacher who is the quickest to grasp the most modern methods of applying old truths by presenting new subjects for illustration, and new items of information, are the teachers that are giving us the best schools.

Now just a word to parents. You should remember that the school should be and is only auxiliary to the home, and should be aided and strengthened by home training and home interests.

Some repairs have been made upon the most of our school buildings. We have painted the buildings in No. 2, 5 and 10. The one at Locke's Mills needs another coat, which we intended to have given it, but could not get the painters when school was not in session. We have put in new blackboards in No. 1 and 8, and will here add that we need several more. And more painting should certainly be done the coming season. The house at Greenwood city needs to be sheathed and new blackboards put in. And so it goes; we must keep making repairs, both outside and in the schoolroom, each year, and thus make the school a place our children will be willing and anxious to go to, and to help to make it more and more attractive.

In closing I wish to again extend my sincere thanks to the members of the S. S. Committee for their help and cooperation in all

matters relating to our school work; to the teachers and scholars generally for their kind greetings and seeming disposition to try and do their part of the school work; and to many of our citizens for their kind word and good wishes, which have made easier many duties which would have seemed very unpleasant but for the belief that it was for the best interest of the whole.

Respectfully submitted,

G. W. RICHARDSON, Supt. of Greenwood.

Your S. S. Committee have made the following recommendations:

In view of the needs of the schools your school committee would recommend the following appropriations:—

Support of schools.....	\$850 00
Purchase of text books.....	100 00
Repairs of schoolhouses.....	125 00
Appliances.....	25 00

Would also recommend that an article be put in the warrant for the annual town meeting to see if the town will authorize the school committee to maintain a school in District No. 8, also in District No. 9, also in District No. 11.

In conclusion your school committee will say that they are well pleased with the management of your superintendent for the past year and the results of the same in the schools.
